

# OMNI Drilling

## SERVICES

- Onshore seismic drilling
- Operational support
- Permitting
- Contract Labor

## OUR COMMITMENT

We combine years of experience with the latest equipment and technology to provide equipment and services that meet the highest industry standards. We provide training to keep safety a top priority. We have grown by providing our customers with productive, hands-on management, and evolving product and service capabilities to best meet their needs.

Through innovation and experience, OMNI's drill crews have successfully performed milestone seismic drilling programs under extensive regulations within Gulf Coast region and federally owned lands, including national preserves and protected habitats.

OMNI's core expertise is in the difficult transition zone along the coastal regions of the Gulf of Mexico, and in the hardwood areas of the southeastern United States. In addition, we have specialized equipment and personnel that can successfully provide services in the difficult and often remote Rocky Mountains regions and basins that surround it.

## Drilling Rig Fleet
