

Fluid Services

SERVICES

- Drilling fluids
- Chemicals
- Storage, Mixing, Fluid Pumping
- Fluid Trucking, Recycling, Tank Cleaning, Disposal

OUR COMMITMENT

We combine years of experience with the latest equipment and technology to provide equipment and services that meet the highest industry standards. We provide training to keep safety a top priority. We have grown by providing our customers with productive, hands-on management, and evolving product and service capabilities to best meet their needs.

B.E.G. Liquid Mud provides oil and gas field drilling services including drilling fluids, chemicals, storage, mixing and fluid pumping. Our drilling support packages can also include fluid trucking, recycling, tank cleaning and disposal services throughout central Texas, Louisiana, and beyond.

Exceptional Products

We have what you need

We provide high-quality specially designed compounds and mixtures, formulated to meet customers' specific drilling conditions. Our fluid service veterans have a combined total of more than 60 years experience, with expertise in unconventional oil and gas plays including the Gulf Coast's polemical Austin Chalk reservoir.

Exceptional Service

We work on your schedule

Our plants are manned 24 hours a day. We specialize in providing large quantities of quality pre-mixed liquid mud when you need it. Our extreme customer-centered focus helps ensure that our service is fast, accurate, efficient and reliable.
