

HSE Policy Statement

HSE VISION STATEMENT

OMNI Energy Services is committed to promoting and fostering best practices in Health, Safety and Environment (HSE) for the protection of our employees and stakeholders. By providing HSE tools, knowledge and leadership, we intend to partner and assist in achieving operations excellence.

OUR COMMITMENT

We contribute to the success of OMNI Energy Services Corporation by providing a business based approach to HSE. Our Team is a creative and reliable resource providing credible guidance that is responsive to the business model of OMNI Energy Services.

ENERGY SERVICES CORP.

Health, Safety, & Environment Policy

OMNI Energy Services is committed to achieve and maintain excellence in Health, Safety, and Environment (HSE). We will conduct our business in a manner that protects the safety and health of our employees, our contractors, customers, and the communities in which we work, and which demonstrates a proactive approach towards environmental stewardship and continual improvement.

HSE excellence will be achieved through the leadership of management, implementation and communication of a management system approach, and maintaining compliance to our policies and standards. Active commitment and proactive support of HSE programs and initiatives is required by employees of OMNI Energy Services. We are committed to:

- Our belief that safety, health, and environmental accidents are preventable
- Protect the health and safety of our employees
- Promote and maintain a work environment in which each of us accepts personal responsibility for our own safety and in which everyone is empowered to intervene to ensure the safety of their fellow employees and others
- Use of an effective management system which serves as the framework for the setting of goals and performance objectives aimed at continuous improvement
- Monitor and evaluate our HSE performance through the definition and use of key performance indicators, implementation of and compliance to operational and regulatory standards, training (technical, operational, behavior-based safety and human factors) and assessments and audits
- Educate our employees by providing technical, regulatory, operational, and behavior-based safety/human factors training focused on developing a culture of excellence.
- A basic obligation to comply with applicable laws and regulations where we operate

The commitment to this Policy by employees of OMNI Energy Services provides the foundation for risk management and reduction, operational excellence, and long term business success.
