OUR COMMITMENT

Our clients have come to trust us for innovation, diversity, integrity and quality. We recruit experienced individuals and provide training to keep safety a top priority. Our pinnacle program meets and exceeds industry standards. We are committed to continue to strive to be the industry leader.

Rig Tools has evolved into one of the largest rental equipment and tool companies on the Gulf Coast. For over 30 years, we have delivered experience, innovation and unsurpassed commitment to quality to a diverse client base. We serve our clients from Mississippi to Texas, Oklahoma, New Mexico and Wyoming from six strategic locations, each equipped with highly trained, field and service personnel.

Equipment Capabilities

We have what you need

We service drills, workovers, production, plants, contractors, environmental and industrial companies. Our equipment is designed to handle mud, water and chemicals. We can furnish a comprehensive equipment package including complete well drilling packages.

Wireline Units

We've got you covered

Our specially designed wireline units can service deep hole and directional wells. We have the largest fleet of 3/16 braided wireline units in the region.

Innovation, Integrity, Efficiency

We're focused on you

Dispatchers are on call 24 hours a day seven days a week. With just one call, our mechanics, electricians and CDL drivers can respond to your request.
